

## SNUG MAT 160W/m<sup>2</sup>

160MAT

Snug Mat 160W/m<sup>2</sup>

### OVERVIEW

The Snug Mat is one of the easiest floor heating systems to install on the market today. They are made up of twin-conductor, single-lead elements and because they're mounted onto an adhesive fabric mesh, they stay flat as soon as they're rolled out; making installation quick and easy.

Available in a range of sizes, suitable for both large and small spaces.

### KEY FEATURES
