

ThermScrews

Description

The ThermScrew packs are specifically designed for fixing our insulation construction boards down to both concrete and wood subfloors. The galvanised washers should be fixed down 15 per board, with each pack coming with 50 screws and washers in. The screw gauge is 3.5mm with a counter sunk Philips head and the galvanised washers are 0.9mm thick.

- **Available in packs of 50**
- **15 fitted per board**
- **Available from stock**
- **Next day delivery available.**
